

# IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

## VALLEY MAINT CORP NO 2

### Failed to Implement Significant Deficiency Corrective Action(s)

Este informe contiene información muy importante sobre su agua potable. Tradúzcalo o hable con alguien que lo entienda bien.

Our water system recently violated a drinking water requirement. Although this situation is not an emergency, as our customers you have a right to know what happened, what you should do, and what we are doing to correct this situation.

A routine drinking water inspection conducted on 9/2/2025 by the state drinking water program identified significant deficiencies that may pose a risk to public health. We were required to take action to correct these deficiencies; however, we failed to take action by the required deadline.

Significant Deficiency	Required Completion Date	Steps We Are Taking	Estimated Completion Date
F310 - Finished Water Storage	January 29, 2026	We have hired an engineer to design and replace the tank. We should start construction this summer. We should be completed by 12/31/2026	12/31/2026

- An uncorrected significant deficiency may allow contaminants or disease-causing organisms to enter the drinking water, which can cause diarrhea, nausea, cramps, and associated headaches.

#### What does this mean? What should I do?

- **You do not need to boil your water or take other actions. However, if you have specific health concerns, consult your doctor.**
- If you have an infant, severely compromised immune system, are pregnant, or are elderly, you may be at increased risk and should seek advice from your doctor about drinking this water. General guidelines on ways to lessen the risk of infection by bacteria and other disease-causing organisms are available from EPA's Safe Drinking Water Hotline at 1-800-426-4791.

We anticipate resolving the problem by **12/31/2026**.
